of Science and
Technology**

Project Data:

King Abdullah University of Science and Technology (KAUST) is an international, graduate-level research university. Research at KAUST focuses on areas that are important to the future of Saudi Arabia, the region and the world and takes place in world-class facilities serving students, researchers and faculty in disciplines such as energy and environment, water desalination, industrial biotechnology, and scientific computing. All classes at KAUST are conducted in English. KAUST creates and support the highest standards of scholarship through merit-based opportunities for men and women from around the world.
